Do you anticipate that your child will need to take medication during his time in child care? Yes No. If yes, please note that all necessary paperwork must be on file at their respective school before we can administer medication. No over the counter medication can be given by our staff. Depending on the type of medication, and the existing staff, it is not always possible to administer medication during child care hours. We recommend that medication plans be done in such a way as to limit medication administration to school hours when a nurse is in attendance. The director of child care and the school nurse will be happy to work with families in making these decisions.

In order for your child to participate fully in the curriculum and activities of the child care program, it is necessary that you complete the section below-if you have questions regarding these releases, please feel free to call the office for clarification.
